- Servir à 16°C.

Pre-sale special offer

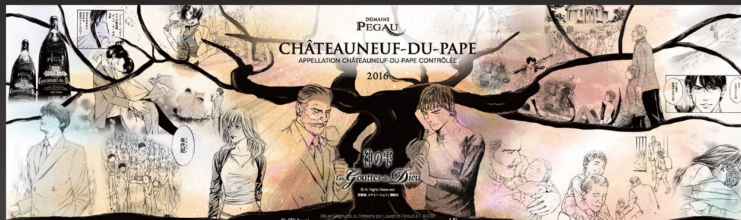

2016 Les Gouttes de Dieu

Domaine Pegau Châteauneuf-du-Pape Rouge

An ultimate selection,
true to the "Drops of God"

Laurence Feraud, one of the world's most famous winemakers, created her Cuvée da Capo. It is an exceptional wine from an old vine blend of thirteen different grape varieties from the Southern Rhone. Made only in the most successful years and starting with the 1998 vintage, it has been released seven times in the last twenty years. It has scored 100 points for over half the releases, a status that few wines in the world have achieved.

In 2016 a Cuvée Da Capo was produced, which Laurence believes is her best ever. Just four barrels were put aside for additional aging making a total of four years. Laurence then asked the famous producers of "The Drops of the Gods" to take part in the final blending of this truly special wine. This Châteauneuf-du-Pape red by Domaine Pegau 2016 Cuvée "Les Gouttes de Dieu" is a unique release limited to only 300 magnums. The aging in magnum will be slower than in a bottle, and this wine will be at the start of its ideal drinking period in 2030. If you would like to drink it earlier, then you should decant and enjoy the wine as it opens up over a number of hours.

The unique label

A uniquely crafted wooden case and scarf are included.

«Laurence Feraud in her own words:»

Since the publication of the Manga "Les Gouttes de Dieu" ("The Drops of Gods"), I had always hoped to meet the authors and graphic designers. I was finally lucky enough to have the Kibayashi family visit the Domaine at the end of November 2019.

This was my opportunity to offer them the chance to taste samples from two barrels of Châteauneuf-du-Pape 2016 Domaine Pegau red that I had carefully aged. I also suggested the idea of a partnership thanks to the talents of Mr. Tadashi Agi (Author) and Mr. Shu Okimoto (Illustrator).

The brother and sister Kibayashi were impressed by this red Châteauneuf du Pape from the heart of the Cuvée Da Capo 2016, which had an additional two years of aging in barrels. This longer

aging made it possible to reinforce the power, the roundness and the alcohol with fine tannins supporting the structure of this monumental wine.

In Japan, the entire "Les Gouttes de Dieu" team told me of their great interest in this project, which we completed in September 2020. To retrace the history of Manga, the saga is expressed around the entire circumference of the magnum. It traces a tree of life, which is both the vine and as well as the most important moments in our life. "The Family Chronicle" of every generation is united by the bond of wine. The story is touching for its truth, its authenticity and the passion with which we have all pooled our talents. "The Drops of Gods" were born as the world experienced them through reading; today it is possible to taste them.

«Limited release» "The Drops of Gods" ver 1,500ml Bottle

Pre-release special price (Offer valid until October 30th, 2020) **¥150,000** (Tax Excl.)

〈 Scheduled release in late November 〉 Retail price ¥198,000 (Tax Excl.)
